DESIGN ELEMENTS

The Essence of Rhythm

The Essence of Rhythm

Suddenly emerging from the elements of nature, a vertical, organic poetry. In the strength of rock fragments, in the delicate movements of the breeze, in the random imprints of the sand. Pausing and revealing hidden patterns, experiencing the slightest sensations, finding unique textures.

Allegretto

Design Bertrand Lejoly

The ALLEGRETTO wall panel features a linear, bold, asymmetrical motif enabling dynamic, modern and captivating wall decors.

Its mineral-inspired, unpredictable pattern catches the eye and provides a rich texture to walls, ceilings or even furniture.

The wall panel's organic motif reveals a sequential, rhythmic pattern with varying intensity, giving the design element a form of repetition and regularity. The gentle undulations are also reminiscent of ripples forming across a liquid surface or a waving fabric caught in a light breeze.

Canelé XL

Design Bertrand Lejoly

As part of the CANELÉ family, the CANELÉ XL wall panel stays true to the beloved linear and Scandinavian-inspired design. With its more generous proportions, this resolutely modern design element magnifies the rounded nature of the fluted motif, resulting in a more characterful and architectural element.

Dorique Flex

Design Bertrand Lejoly

Putting a contemporary twist on a historical Greek motif, the DORIQUE FLEX design brings a distinct texture and character to rounded walls, counters or even pillars. This linear wall panel reinterprets a classical architectural feature making for a timeless design element suited to all types of interiors.
